

Chill-Pak™ Collapsible Insulated Knock-Down Tote Panels for Plastic Reusable Totes

Chill-Pak™ pre-qualified recyclable polyurethane (PUR) insulated knock-down tote panels provide exceptional protection for temperature-sensitive food, pharma, and biologic applications over longer shipping cycles. Ship CRT, refrigerated, and frozen products anywhere safely, confidently, and cost-effectively. Choose panels for standard tote sizes or allow us to retrofit panels to fit your existing custom tote sizes.

Ideal solution for reusability within closed-distribution loops.

Advantages

- ❄ Maintains temperature-sensitive products over longer shipping cycles. Typically runs 48-72h for 2-8c and CRT applications compared to EPS (Styrofoam).
- ❄ Chill-Pak™ unique “knock-down” **collapsible panel design** allows insulated panels to arrive flat, saving valuable warehouse and truck floor space while reducing inbound freight costs.
- ❄ Polyurethane panels are highly durable and do not flake or have brittle properties.
- ❄ Simplifies and normalizes the distribution process flow by eliminating “set asides” or special handling in line with existing operational processes.
- ❄ Eliminates the need of overnight shipping. Can ship totes via your service fleet, LT freight, or ground for longer shipping cycles.

CHILL-PAK™
Ship at any **DEGREE ...** and **KEEP IT THERE**

Chill-Pak™ tote panel inserts maintain colder temperatures over longer shipping cycles under the most rigorous environmental conditions.

Coolers not only prevent rejections or product failures due to shipping unforeseen delays, but also **eliminate the costly requirement of overnight/next day shipments.**

Cooler Specifications & Configurations					
Part No.	Temp. Range	Shipping Duration	Payload ID	Outside Dimensions	Wall Thickness
RT-171208	CRT, 2-8°C, 0°C	48-72h	17.5 x 12.5 x 6	20.5 x 15.5 x 9	1.5
RT-191110	CRT, 2-8°C, 0°C	48-72h	19.5 x 11 x 10	22.5 x 14 x 13	1.5
RT-201109	CRT, 2-8°C, 0°C	48-72h	20 x 11 x 9	23 x 14 x 12	1.5

Additional standard stock sizes and custom specifications available upon request.

Custom Shape-Molded Solutions

Our expertise in package design and unique manufacturing capabilities combine to allow us to create the perfect custom-fit panel your totes **without high-cost of custom molds.**

Our customized polyurethane molded cushions are designed for products that require a consistent, precise fit and superior product protection.

Proprietary scalable manufacturing process allows small batch runs up to high-volume requirements.
