

# CHILL-PAK™ INSULATED DRY ICE SHIPPERS FOR VACCINES

## FOR EXTREME TEMPERATURES AND DURATIONS

### ISTA 3A/7E QUALIFIED -89°C TO -70°C UP TO 120-HOURS

Chill-Pak™ qualified insulated Shippers are designed designed to provide exceptional protection for parcel and bulk shipments of Specialty Pharmaceutical applications including COVID-19 vaccines under extreme temperatures over longer shipping cycles. Ideal parcel shipper solution for national and global distribution of COVID-19 vaccines.

#### FEATURES / ADVANTAGES

##### LARGE PRODUCTION RUNS

Ability to mass produce Shippers in both small and large production runs.

##### ADVANCE INSULATION TECHNOLOGY

Ability to ship under the most rigorous conditions. Utilizes less dry ice to reduce freight costs.

##### SMALLER FOOTPRINT

Compact design saves freight & space.
